INCORPORATED

Eightieth Annual Report Twelve Months Ended January 31, 1952

To the Stockholders of

Montgomery Ward & Co .:

Net earnings for the year ended January 31, 1952 were \$54,342,330, compared with preceding year earnings of \$74,159,977. After deducting dividends paid on Class "A" stock, the earnings were equivalent to \$8.14 per share of common stock, compared with \$11.19.

Federal, state and local taxes for the year totalled \$71,323,000. Retroactive increases in the Federal income taxes passed by Congress late in the year again, as in 1950, reduced earnings. Federal income taxes took \$58,085,000, equivalent to \$8.93 per share. Federal taxes on payrolls and state and local taxes cost \$13,238,000, or \$2.04 per share. In addition to these direct taxes, the company was required to collect \$22,701,000 in taxes from its employees and

\$17,778,000 from its customers. The total amount of the taxes assessed against the company or collected by the company for Federal, state and local governments during the year amounted to \$111,802,000. These taxes and the cost of collecting them have pyramided to the point where, with the accompanying decline in value of the dollar, they have an adverse effect upon the operations of the company, its employees and its customers.

Sales for the year were \$1,106,157,077, representing a decline of \$64,304,724 or 5.5%. This decrease reflects the trend which began last June toward the more normal level of customer demand that prevailed prior to the Korean War.

Reflecting Federal credit regulations and a decline in customer demand for merchandise normally sold under time payment terms, time payment accounts decreased \$24,590,203, to \$166,870,461 at January 31st.

Improved availability of practically all lines of merchandise made it possible to reduce inventories and commitments for merchandise to a lower level in relation to sales. Merchandise inventories were reduced \$5,597,979, to \$243,916,898. Commitments for the purchase of merchandise were reduced \$59,000,000, to \$89,000,000.

Cash and United States Government securities totalled \$245,653,444 on January 31st, or \$124,071,610 in excess of total current liabilities. During the year, net working capital increased \$34,956,187 to \$539,168,521, and the ratio of current assets to current liabilities at January 31st was 5.4 to 1.

Payments of cash dividends during the year amounted to \$20,918,012, which represented \$3.00 per share of common stock and \$7.00 per share of Class "A" stock. The book value of common stock increased \$5.14 per share, to \$85.34 on January 31st.

Respectfully submitted,

Sewell Avery,

Chairman of the Board

Montgomery

Auditors' Certificate

To the Stockholders and Board of Directors,

Montgomery Ward & Co., Incorporated:

We have examined the balance sheet of Montgomery Ward & Co., Incorporated (an Illinois corporation) as of January 31, 1952 and the related statements of earnings, surplus, and money provided from operations and its disposition for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and related statements of earnings, surplus, and money provided from operations and its disposition present fairly the financial position of the Company as of January 31, 1952, and the results of its operations for the year then ended, and were prepared in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

ARTHUR ANDERSEN & Co.

Chicago, Illinois March 18, 1952
